## Top light source upper light for stereo microscope

Light source: LED light emitting diode

input voltage: DC5V

Output power: 3W

Illuminance: 30000LUX-35000LUX

Color temperature: 6500K-7000K

Light color: White / warm white

Product life: > 30000HRS

Lamp part material: aluminum alloy

LED number: 1PCS

Outer diameter 54mm

Body Length 46mm

Mount: two arm mounting focus bracket

46MM-66mm

Features

1 the light angle can be adjusted

2 luminance can be adjusted

3 the light slanting from the rear does not occupy the operating space.

Application:

Welding or miniature sculpture, microscopic carving
